COVID-19: Insights and Guidance

An ABC webinar series featuring industry experts to answer your questions about the legal, safety and economic impacts of COVID-19.

Navigating COVID-19 From the C-Suite Leader's Perspective

Brought to You by ABC's Strategic Partners

Introductions – One minute each

Name, title and company

Provide a brief description of the scope of work your company does (e.g. electrical construction and service)

Provide a brief mention of the markets you are in, both geographically and product type (e.g. office, industrial, health care)

Theme of Leadership

My favorite definition of leadership:

"The authentic expression of who you are in such a way that creates the conditions for others to achieve."

– Alan Medville

- In the context of this definition, share one example of leadership that you saw or exhibited in the last few weeks that might be of value for our listeners to learn from and/or copy.
- What one leadership opportunity do you see coming for construction companies?

Theme of Business Continuity

Give us one practical idea or example of an action you have taken, or are planning to take, to allow for your business to continue through this time of battle with COVID-19.

When this comes to an end, what are you planning for on the other side of this tragic moment in time?

Theme of Safety

Give us one practice you have seen or put in place that is working for your:

a) company.

b) construction project.

Theme of Transformation and Disruption to Our Industry

What one paradigm shift do you think will result from this pandemic as it relates to construction?

Theme of Government's Role and Support

What is one thing you would like to see our government do:

a) immediately (that they have not already done)?

b) in the long run as a result of this pandemic?
