

Scholarship Application

In 2018, the TEXO Foundation awarded \$25,000 in scholarships to students from regional universities and we look forward to them returning to the North Texas area for employment through internships and upon graduation. Applications are for students interested in working in the construction industry with at least one semester remaining in their program of study (including Graduate students).

Students are encouraged to apply for the scholarships on an annual basis. After receiving the applications, the TEXO Foundation reviews the applications and determines which students will receive an opportunity to interview for a scholarship. Many factors weigh into the decision of awarding scholarships, and the Foundation takes time to visit with the candidates in a panel-style interview via Skype.
